## FRONTEND DEVELOPER

With experience as a Frontend Developer, I specialize in designing, developing, and deploying high-quality web. Expertise in ReactJS, JavaScript, TypeScript, and integrating RESTful APIs and GraphQL for seamless user experiences. Proficient in collaborating with cross-functional teams to deliver client-focused solutions. Passionate about staying updated with the latest trends in web app development.

## SKILLS

JavaScript, TypeScript Tailwind, Material-UI, Ant Design	ReactJS Bootstrap, Framer Motion	GitHub Firebase, MongoDB, MySQL
-------------------------------------------------------------	-------------------------------------	------------------------------------

## PROFESSIONAL EXPERIENCE

### Frontend Developer Intern | FlareX Infotech

July 2025 – Sep 2025

Pulwama, Jammu & Kashmir, India - 192301

Worked on building responsive and user-friendly web applications using ReactJS, JavaScript, and modern UI frameworks. Collaborated with senior developers to implement reusable components, integrate RESTful APIs, and optimize application performance. Gained hands-on experience in real-world development workflows, version control with GitHub, and agile team collaboration.

#### Project:

#### AWS Infotech – Company Portfolio Website

**Tech Involved:** ReactJS, Framer Motion, Material UI, Tailwind CSS, Swiper

**Role:** Frontend Developer

Developed a modern and responsive company portfolio website showcasing services, projects, and brand identity. Implemented smooth animations using Framer Motion, interactive sliders with Swiper, and reusable UI components with Material UI and Tailwind CSS. Focused on performance optimization, clean UI/UX, and cross-device compatibility.

### Frontend Developer Intern | Engineers' Computer Hub

June 2024 – July 2025

Pulwama, Jammu & Kashmir, India - 192301

#### Projects:

#### Hotel Management System

**Tech Involved:** ReactJS, Express.js, MongoDB

**Role:** Full Stack Developer

Built a full-stack hotel management system to manage bookings, rooms, customers, and staff operations. Developed dynamic frontend interfaces using ReactJS and implemented RESTful APIs with Express.js for secure data handling. Optimized database operations and ensured seamless communication between frontend and backend for efficient hotel workflows.

## ACADEMIC PROJECTS

### Auditorium Booking System | PHP, MySQL

**System Development:** Developed a web-based Auditorium Booking System using PHP to manage event scheduling and venue reservations efficiently.

**Database Management:** Designed and integrated a MySQL database to handle bookings, user details, availability, and approvals with secure and optimized queries.

**User Experience Enhancement:** Implemented an intuitive and responsive interface allowing users to check availability, submit booking requests, and receive real-time status updates across devices.
